

Appendix 1: Alphabetical List of Battles, Actions, and Skirmishes

This appendix lists the battles and actions of the war, arranged alphabetically with chronological data. It was compiled from several sources with Francis B. Heitman's *Historical Register of Officers of the Continental Army* (Washington, D.C.: The Rare Book Shop Publishing Company, Inc., 1914) serving as the primary source. Heitman's list is included in *The Army Almanac: A Book of Facts Concerning the Army of the United States* (USGPO, 1950) with a few corrections. Peckham (Peckham, Howard H. *The Toll of Independence: Engagements & Battle Casualties of the American Revolution*. Chicago, London: University of Chicago Press, 1974) lists many more engagements that include the forage wars, men on land firing muskets at passing ships, etc. These events are not covered in history books nor are they included in the lists of battles and actions. Peckham provides only the barest description of the action. His main focus is tallying the casualties. Some battles, such as the First Battle of Saratoga (also known as the Battle of Freeman's Farm) or Bunker Hill (also known as Breed's Hill), have several names and appear under more than one designation to facilitate retrieval.
